EXAMINER'S AMENDMENT AND REASONS FOR ALLOWANCE

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Angus Gill on August 26, 2003.

The application has been amended as follows: on page 4, line 7 of specification,
Change "DOS" to "DOF".

The following changes to the drawings have been approved by the examiner and agreed upon by applicant: Figure 13 should be labeled "Prior Art". In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

The following is an examiner's statement of reasons for allowance: None of the prior art of record teaches or discloses an exposure method comprising the step of arranging a transparent plate that includes a thin film, within a range that near field light from the thin film may operate on the object and the light transmittance of the thin film changes according to an intensity of light of incidence in combination with the step of exposing the object with near field light generated by the projecting a pattern on a mask onto the thin film of the transparent plate.

None of the prior art of record teaches an exposure apparatus comprising a transparent plate that includes a thin film, within a range that near field light from the thin film may operate on the object and the light transmittance of the thin film changes according to an intensity of

light of incidence in combination with a projection optical system for projecting a pattern on a mask onto the thin film and for exposing the object with the near field light.

None of the prior art of record teaches or discloses a device fabricating method using an exposure apparatus as discussed above in combination with the steps of exposing the object using the exposure apparatus and performing a predetermined process for the object exposed.

None of the prior art of record teaches or discloses a device fabricating method using an exposure apparatus as discussed above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
